

Terminal box 4-pin

SCHNEID 4-pin terminal box for FSS-SCHNEID systems
with integrated surge arrester module four-pole.

Order number:	020.11730
Order code:	Anklemmdose 4polig für FSS-SCHNEID Systeme

Overview:

The SCHNEID terminal box 4-pin is used to clamp the ground data cable according to the specifications for networks (for more details see www.schneid.at). Furthermore, all necessary arrester modules and protective devices for the precautions to protect the network from indirect lightning strikes are integrated in the box.

Terminal plan:
